Thanks for your 11/30 and enclosures, of which the CBN police spying stories have value. Among Jews the name Hack Rubenstein is about as uncommon as Jo Kelley among the Irish. The real Jack Ruby was a person who could not possible have been the one in the UnAmerican hearings. I have reason to believe the alleged report linking him to Nixon is a fake.
This kind of stuff, forced on Congress today, is bound to be counterproductive.
Whatever your unspecified efforts with my work on Capitol Hill were, thanks. I'm sorry something motivated you to be so elliptical I have no idea what you did or are talking about and should I hear from these people will not understand what prompts it.
You apparently did not understand the flyer on the new book, which also surprises me. I have printed it and it can be bought if it interests you.
The reverse side explain why I can't engage in lengthier correspondence. Thanks,
HW 12/3/75
